Falling Leaves

Keep It Simple (Picture)

Make it Clear

Make it Clear (Capitalisation)

- ALL CAPITAL LETTERS ARE DIFFICULT TO READ
- Upper and lower case letters are easier

Make it Clear (Fonts)

Sanserif

Z

Serif

Z

Make it Clear (Fonts)

- Serif fonts are difficult to read on screen
- Sanserif fonts are clearer
- *Italics are difficult to read on screen*
- Normal or **bold** fonts are clearer
- Underlines may signify hyperlinks
- Instead, use **colors** to emphasise

Make it Clear (color to emphasize)

Not Just Attendings

53% Medical Students

50% on antidepressants

50-70% Residents

50-70% RNs*

*Limited data for PAs and NPs

Not Just Attendings

53% Medical Students
50% on antidepressants

50-70% Residents

50-70% RNs*

*Limited data for PAs and NPs

Make it Clear (Numbers)

Use numbers for lists **with** sequence

For example:

How to put an elephant into a fridge?

1. Open the door of the fridge
2. Put the elephant in
3. Close the door

Make it Clear (Numbers)

How to put a giraffe into a fridge?

1. Open the door of the fridge
2. Take out the elephant
3. Put the giraffe in
4. Close the door

Make it Clear (Bullets)

Use bullets to show a list **without**

- Priority
- Sequence
- Hierarchy,

Make it Clear (Contrast)

- Use contrasting colors
- Light on dark vs dark on light
- Use complementary colors

Make it Clear (Contrast)

- Use contrasting colors
- Light on dark vs dark on light
- Use complementary colors

Make it Clear (Contrast)

- Use contrasting colors

Light on dark vs dark on light

Use complementary colors

Make it Clear (Contrast)

A dark blue or black background works best for talks in a large room.

Make it Clear (Contrast)

Dark letter against a light background are best for smaller rooms or teaching.

Make it Clear (Complement)

High Contrast

This is some text

This is some text

This is some text

Low Contrast

This is some text

This is some text

This is some text

Make it Clear (Complement)

- Use contrasting colors
- Light on dark vs dark on light
- Use complementary colors

因为实践证实
如果是其他配
色的话会看不
清我们发的到
底是什么东西
甚至会眼瞎你
随便感受一下

好了今天就这样吧
其实这张才是终极
配色我前面一直好
心不给大家看，就
用这张图结束吧。
大家还有问题吗？

穿上这个就是整条街最靓的仔

You will read this first

And then you will read this

Then this one

Be Progressive

Types of Instructional Tools

Types of Instructional Tools

Be Consistent

Be Consistent

- ✓ Differences draw attention
- Differences may imply importance
- Use surprises to attract not distract

Be Consistent

- Differences draw attention
- Differences may imply **importance**
- Use surprises to attract not distract

Be Consistent

- Differences draw **attention**
- Differences may imply **importance**
- Use **surprises** to **attract** not distract

- The credit slide

- Give credit to those who have worked with you or financed your research

Choosing titles and words

- Titles are important.
- Titles should look like titles.

Choosing titles and words

- Reduce words on your slides.
- Use key words and phrases on the slides.

Before

Early Regulatory and Law Enforcement Problems

- Silk Road was an online black market, and the first “dark net market,” best known as a platform for selling illegal drugs and other illicit goods and services purchased with bitcoin.
- In October 2013, the FBI shut down the website and arrested Ross Ulbricht, prosecuting him for omnibus violations of federal drug and anti-money laundering laws and ordering him to pay restitution of \$183 million, representing all sales of illegal items on Silk Road
- During 2013, bitcoin prices took off, climbing from \$13 to more than \$1,200 at its peak. By April 2013 Mt. Gox had grown to handle 70% of the world’s bitcoin trades and suspended trading on April 11–12 for a “market cool-down.”
- In November 2013, Mt. Gox customers were experiencing delays of weeks to months in withdrawing funds from their accounts and cashing out had become difficult to impossible
- February 7, 2014, Mt. Gox halted all withdrawals. Less than two weeks later, it suspended trading, closed its website and exchange service, and filed for a form of bankruptcy protection under Japanese law to allow courts to seek a buyer
- Mt. Gox announced that around 850,000 bitcoin, valued at roughly \$480 million at the time, belonging to customers and the company, was missing and likely stolen

After

Early Days of Bitcoin

- 
- A vertical timeline with blue circular markers at each event point. The timeline starts at 2013 and ends at 2014, with a downward arrow at the bottom.
- 2013
 - FBI shuts down blackmarket website Silk Road. Founder ordered to pay \$183 million in restitution
 - Price of Bitcoin rises from \$13 to \$1000 by year's end
 - 70% of Bitcoin trades handled by Mt. Gox
 - Mt. Gox customers experienced delays in withdrawing funds
 - 2014
 - Mt. Gox halts trading and announces 850 thousand Bitcoins were missing

Choosing titles and words

Factors Influencing The Development Of Fintech Credit - Supply

- Fintech lenders may make more intensive use of digital innovations.
 - Automate far more processes than traditional credit providers and thus provide a relatively convenient and quick service to customers
 - May make use of new data sources
- Ability to scale
 - Low incremental investment costs and digital contact with their potential customer base
 - The underlying financial activity is easy to standardize – for example, through the use of digital identification and standardized digital contracts
- Cost advantages
 - Traditional lenders have a relatively high fixed cost base due to their branch networks and their need to maintain existing IT systems
 - They also face higher capital and liquidity requirements on loans than lending through Fintech credit platforms outside the prudential regulatory perimeter
- Traditional lenders have left room for new lending market entrants
 - Traditional lenders withdrew from some market segments in the post-crisis period

Fintech Developmental Factors

Supply

digital innovations
ability to scale
cost advantages
new lending market entrants

Demand

customer expectations
demographics
reduced trust
desire for high returns
